BIO

Engineering Leader, Product Engineer, and Senior Software Engineer with over 15 years of experience working at the intersection of **product, engineering, and people**. I've led and scaled remote teams, shaped technical direction, and stayed hands-on across software development, system design, delivery, and **AI-native product workflows**. My background spans backend architecture, distributed systems, product development, and people leadership, with a strong focus on **clarity, reliability, and sustainable execution**.

CORE SKILLS

Product, Delivery & People Leadership

Engineering leadership focused on **team growth, hiring, mentoring, performance reviews, and remote collaboration**. Strong track record of working closely with **Product and Design** to shape priorities, define pragmatic roadmaps, and turn ambiguity into **clear, outcome-driven execution**.

Technical Leadership & Architecture

Experienced in **system design, architectural decision-making, and technical strategy** for scalable, reliable platforms. Strong focus on **simplicity, maintainability, observability, performance, and long-term product evolution**.

Hands-on Software Development

T-shaped engineer across **backend, frontend, and platform work**, with experience in Elixir/Phoenix, Ruby on Rails, Python, JavaScript, React, React Native, PostgreSQL, MySQL, AWS, Docker, CI/CD, and observability.

Community, Mentoring & Advocacy

Mentoring, knowledge sharing, and **healthy engineering cultures**, with a strong commitment to **inclusion, belonging, and mental health in tech**.

EXPERIENCE

[seQura](#) – *Senior Software Engineer*

APR 2026 – PRESENT

- Working in the **Merchant Experience** team in a **0→1 product engineering role** spanning **ideation, product definition, technical decisions, and execution**.
- Partnering closely with **Product and other stakeholders** to shape scope, navigate trade-offs, and turn **ambiguous opportunities** into **clear, maintainable solutions** with **end-to-end ownership**.

Main technologies: Ruby, Ruby on Rails, React, React Native, PostgreSQL.

[Avenida](#) – *Co-Founder & Product Engineer*

OCT 2025 – PRESENT

- Building a platform that helps people **save, organize, and revisit products from any marketplace** more intentionally.
- Working across **product shaping, technical decisions, and hands-on development**, covering architecture, implementation, and day-to-day execution with **strong end-to-end ownership**.

Main technologies: React, Next.js, React Native, Supabase, TypeScript.

[Remote](#) – *Engineering Team Lead*

JAN 2022 – MAY 2025 (3 years & 4 months)

- Led and scaled the **Time & Attendance** domain from **one team to two**, growing from **4 to 8 engineers**.
- Co-owned quarterly roadmaps with Product and Design, translating **complex priorities** into pragmatic architecture, clear execution, and team development through **1:1s, performance reviews, and coaching**.

Main technologies: Elixir, Phoenix, JavaScript, React, Next.js, PostgreSQL.

[Factorial HR](#) – *Engineering Director*

JUL 2021 – DEC 2021 (6 months)

- Led the **Time Tracking** engineering team across backend and frontend.
- Owned technical strategy, delivery, and team operations for 4 engineers, aligning execution with product goals and strengthening **team growth and hiring**.

Main technologies: Ruby, Ruby on Rails, React, React Native, MySQL.

[Lingokids](#) – *Senior Backend Developer → Engineering Lead*

APR 2020 – JUL 2021 (1 year & 4 months)

Engineering Lead (NOV 2020 – JUL 2021, 9 months)

- Led a team of 3 engineers and supported the scaling of backend and frontend systems to meet product growth needs.
- Designed and optimized APIs, improving system performance and scalability.

Senior Backend Developer (APR 2020 – NOV 2020, 8 months)

- Built APIs and services to support product growth and improve performance.

Main technologies: Ruby, Ruby on Rails, Python, React Native, AWS, PostgreSQL.

Bizneo HR – Senior Software Engineer

FEB 2017 – APR 2020 (3 years & 3 months)

- Built and scaled the **Bizneo HR Suite** from scratch with **Elixir** and **Phoenix**.
- Partnered with leadership to shape the **MVP** and help grow both the **platform** and **the engineering team from 2 to 8 people**.

Main technologies: Elixir, Phoenix, JavaScript, React, Ruby, AWS, PostgreSQL.

EARLIER EXPERIENCE

The Cocktail – Backend Developer

MAY 2014 – OCT 2016 (2 years & 6 months)

Talento Corporativo – R&D Software Developer

OCT 2010 – APR 2014 (3 years & 7 months)

EDUCATION

U.N.E.D. – University Expert in Artificial Intelligence

OCT 2012 – JUN 2013, Online

Oviedo University – Computer Science Engineering

SEP 2005 – JUN 2009, Asturias (Spain)

I.E.S. N° 1 – Associate's Degree (Technical) Certification in Computer Science

SEP 2003 – JUN 2005, Asturias (Spain)

MENTORING & COMMUNITY

MentorCruise – Mentor

JAN 2024 – PRESENT

Mentor engineers on **technical growth, career transitions, and product building**.

FabadaConf – Co-Founder & Organizer

APR 2018 – APR 2020

Co-founded and organized an annual **software engineering conference** in Gijón, Spain.

LANGUAGES

Spanish

Native.

English

Professional working proficiency.
